RE: Request to Expedite Filing of File Wrapper  
Continuing Application on Superconducting Composition  
Serial No. 012,205

Dear Commissioner Quigg:

We are taking the unusual step of submitting the file wrapper continuing application of the inventor Ching-Wu Chu, Serial No. 012,205, which was filed on February 6, 1987 for "High Transition Temperature Superconducting Compositions" and a Preliminary Amendment therein to your office to expedite its receiving a serial number and being placed in the hands of Examiner D.L. Albrecht in Group 115 without delay.

The reasons for this unusual request are as follows:

(1) Applicant's attorneys have recently interviewed Examiner Albrecht concerning application Serial No. 012,205 and he is waiting for this file wrapper continuation to act on modifications of certain claims that had been added to the parent of the file wrapper continuation by a Supplemental Amendment dated October 18, 1988, but did not reach him before he mailed his Office Action of November 1, 1988.

79252/1--1/20

Honorable Donald J. Quigg  
Page 2  
January 20, 1989

(2) Examiner Albrecht's prompt response to this file wrapper continuation is important since Applicant's continuing-in-part application, Serial No. 032,041, which was filed on March 26, 1987, is involved in Interference No. 101,981 (styled Qadri et al v. Chu v. Beyers et al v. Batlogg et al) and Preliminary Statements and Motions are due to be filed by all parties on or before March 15, 1989.

(3) Prompt action on the enclosed file wrapper continuing application by Examiner Albrecht will permit Applicant Chu's attorneys to better focus its motions to substitute applications, counts, etc. in the Interference since the file wrapper continuing application involves a mixed phase composition including a superconductive phase (123); whereas, the count in the Interference 101,981 is directed to an essentially pure 123 composition.

Inasmuch as President Reagan and your Office have dictated that superconductivity applications be treated special, this request that the enclosed file wrapper continuing application be promptly processed through the Patent and Trademark Office and then delivered to Examiner Albrecht will further that goal.

Respectfully submitted,

  
James B. Gambrell

FILE WRAPPER CONTINUING APPLICATION (FWC)

- WARNING:** This form cannot be used where the parent case may not be abandoned since the filing of a request under the FWC procedure "will be considered to be a request to expressly abandon the prior application as of the filing date granted to the continuing application." 37 CFR 1.62(g).
- WARNING:** This procedure can only be used for a pending application prior to payment of the issue fee. 37 CFR 1.62(a).
- WARNING:** The claims of this new application may be finally rejected in the first Office action where all claims of the new application are drawn to the same invention claimed in the earlier application and would have been properly finally rejected on the grounds or art of record in the next Office action if they had been entered in the earlier application. MPEP § 706.07(b).
- WARNING:** A continuation-in-part application under 37 CFR 1.62 is filed by making changes by amendment to the prior application, 37 CFR 1.62(a), and not with a new application.
- WARNING:** Filing under 37 CFR 1.62 is permitted only if filed by the same or less than all the inventors, named in the prior application.
